

Ideation Phase

Brainstorm & Idea Prioritization

Date	16 June 2026
Team ID	
Project Name	Optimizing User, Group, and Role Management with Access Control and Workflows
Maximum Marks	4 Marks

STEP 1 – Team Gathering, Collaboration & Select Problem Statement

Problem Statement

Organizations often struggle to manage users, groups, roles, and permissions efficiently. Manual access management can lead to unauthorized access, poor accountability, security vulnerabilities, and inefficient task management. A secure, role-based access control system with workflow automation is required to ensure controlled access, proper governance, and improved operational efficiency.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & Idea Prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 10 minutes to prepare
- 1 hour to collaborate
- 2-8 people recommended

1 Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools

Use the **Facilitation Superpowers** to run a happy and productive session.

2 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

How might we effectively manage users, groups, and roles with proper access control and automate workflows for tasks in ServiceNow?

Key rules of brainstorming

- ✓ Stay in topic.
- ✓ Defer judgment.
- ✓ Go for volume.
- ★ Encourage wild ideas.
- 👂 Listen to others.
- 👁️ If possible, be visual.

STEP 2 – Brainstorm, Idea Listing

Step-2: Brainstorm, Idea Listing and Grouping

2 Brainstorm

Write down any ideas that come to mind that address your problem statement.

3 Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the list of "To Groups", give each cluster a sentence-like title. If a cluster is bigger than six sticky notes, try and see if you can break break it up into smaller sub-groups.

STEP 3 – Idea Prioritization

Step-3: Idea Prioritization

4 Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes

💡 TIP

The closer to the top-right corner, the more important and feasible the idea. The closer to the bottom-left, the less important and feasible the idea. It may not be feasible.

💖 Importance

Level of impact this idea will have. How much difference will this idea make for our positive impact?

🚩 Feasibility

Regardless of other constraints, which ideas are easy to make this gender fair idea real, which complexity, risk, or resources required?
