

Requirement Analysis
Solution Requirements (Functional & Non-functional)

Date	19 June 2026
Team ID	
Project Name	Optimizing User, Group, and Role Management with Access Control and Workflows
Maximum Marks	4 Marks

Functional Requirements:

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Management	Create users (Alice & Bob), update user details, manage user records
FR-2	Group Management	Create Project Team group, assign/remove users from the group
FR-3	Role Management	Create Project Manager and Team Member roles, assign roles to users
FR-4	Project Table Management	Create Project records, update project details, delete project records (Project Manager only)
FR-5	Task Management	Create tasks, assign tasks to team members, update task status, add work notes
FR-6	Access Control (ACL)	Restrict project creation, modification, and deletion to Project Manager; allow Team Members to view assigned tasks and update only status and work notes
FR-7	Workflow Automation	Automatically trigger Flow Designer when a task is created, update task status, and request approval from the Project Manager
FR-8	Testing & Validation	Validate user roles, ACL restrictions, workflow execution, and access permissions

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Simple and intuitive ServiceNow interface for administrators, Project Managers, and Team Members
NFR-2	Security	Implement Role-Based Access Control (RBAC), Access Control Lists (ACLs), authentication, and authorization
NFR-3	Reliability	Ensure consistent operation of workflows, task management, and user access without failures
NFR-4	Performance	Provide quick response time for user operations, task processing, and workflow execution
NFR-5	Availability	Ensure continuous access through the cloud-based ServiceNow platform
NFR-6	Scalability	Support additional users, groups, roles, projects, and tasks without major changes to the application
